2. **Notional Net Profit** means the notional value that can be attributed to the representative value of the net positions of your Trades for each Trading Period.
3. The **Profit Consistency Rule** applies to all trading activities during the Assessment Period and/or Trading Period. For the purposes of this Schedule. To satisfy the Consistency Rule: (a) if only Assessment Phase 1 (Evaluation) applies then no single trade can account for 25% or more of your total Required Return or total Target Return; or (b) if both Assessment Phase 1 (Evaluation) and Assessment Phase 2 (Verification) applies then no single trade can account for 50% or more of your total Required Return or total Target Return.
4. The **Lot Size Consistency Rule** applies to all trading activities during the Assessment Period and/or Trading Period. For the purposes of this Schedule. To satisfy the Lot Size Consistency Rule your average trade size is used to calculate your trading range. The range is determined by adding 100% to your average trade size to determine the maximum value and subtracting 75% to determine the minimum value. Note trades are aggregated when placed within a 30 second window into one position for both profit and volume consistency. Note traders are aggregated when placed within a 30 second window into one position for both volume and profit consistency.  
**Example:**  
 Someone places 10 trades, and each trade is for 1 lot. There there average lot size =  $10 / 10 = 1$  Lot  
 The minimum size they could then place to not have a new trade profit removed upon withdrawal would be  $1 \text{ lot} * 25\% = 0.25$  Lots  
 The maximum size they could then place to not have a new trade profit removed upon withdrawal would be  $1 \text{ lot} * 200\% = 2$  Lots
5. The Assessment Period and Assessment Criteria may comprise either 1 or 2 parts. If it comprises 1 part, then you must satisfy the stated Assessment Criteria within the stated Assessment Period.
